BICYCLING AND BASE BALL.

Belleville's Labor Day Sports Were a Success.

Some Fast Racing at Agricultural Park. Close and Exciting Finish - Toronto Team Met the Pluma of the Open League.

Local race and wheel-racing. The winners took the prizes at the Agricultural Park. Notes of the Day.

Base Ball - Notes of the Day.

The racing was well observed by the merchants and manufacturing concerns in Belleville yesterday, and as a result the business had their day. A number of the citizens went to Deseronto, while others went fishing on the bay and a goodly number stayed at home to witness the bicycle races.

The racing was the best ever put up in Belleville, and to Laurie Lockett is due the most of the credit, for he managed the whole affair. There was not a hitch from start to finish, and none of those late starts which are so trying to the spectators. In a word the arrangements were perfect.

The Rammers have also reason to feel proud of their racing men, for they made a good showing against the outside men. Kurrik rode some splendid races, and while he did not draw any first prizes he drove out other riders in fast time. Boyd, who has never ridden in a race before, surprised his club mates. Nash did not come up to the expectations of his friends, although he won the handicap after a hard tussle with Boyd.

Young Daylock, Toronto, easily got away with his field in the novice, and one mile for boys. Boyd, however, was the winner. Kurrik rode some splendid races, and while he did not draw any first prizes he drove out other riders in fast time.

Low Prices in Clothing.

Some people buy goods because they are low priced. In reality, they are not. A lot of fake goods on the market, at any price, and still they find people to "buy." You can buy good quality-made clothing by dealing in reputable houses. The Oak Hall would rather have the reputation for selling low prices, but we think we deserve the reputation for selling "good goods at low prices."

THE DINOLEY BILL.

The New York Mail and Express, in commenting upon the winning of the Grip prize on account of the passage of the United States Bill, says: "The Dingley Bill was projected solely with a view of improving our own affairs, and Canada, in sitting up and howling that it was intended primarily to injure her, is simply pinning the tail on a way which is not unbecoming and ineffectual."

In an interview, in Montreal, a few days ago, he expressed himself indignantly in favor of an export duty on logs and pulpwood, and said: "At the last session I introduced

TO SHUT OUT FRUIT.

An Important Request to be Made of the Dominion by the Ontario Government.

The Toronto Star says that the Dominion Government will be asked soon to prohibit the import of certain classes of fruit from the United States.

It will not be for the sake of protection, but to save orchards from the San Jose scale, a pest which threatens to devastate our fruit. It will be the Province of Ontario which will ask for the prohibition.

The San Jose scale made its appearance this year, and the Ontario Government has been taking all kinds of precautions to head off the pest. It has succeeded, and the pest has been kept at bay.

But it has been found that the San Jose scale is a product of California. A lot of California peaches accidentally brought in and it was found to be diseased.

The Ontario Government sent that every effort to suppress the plague would be useless if diseased stock were imported, so the Dominion will be soon asked to prohibit all fruit imports.

FIXING UP THE HOUSE.
By putting in new furniture, carpets, curtains, etc., and having the walls and ceilings painted, the house is refurnished or re-decorated, is entirely contrary to the rule of Decorative Art.
In house-furnishing schemes, by all means, let the first consideration to the Wall Decoration (which covers the largest space in the house), and then add your other improvements accordingly.
The treatment of Walls and Ceilings should be the key note of your idea in furnishing or re-furnishing any room.
We bring attention to world's latest in Wall Papers to our store, where the largest variety ever known in the history of our business may be seen NOW at minimum cost.

As Good as Gold
The Great Emergency Remedy

Many of the best known people in the
land testify to its efficacy. It promptly cures
coughs and all ailments. Quickly restores
the system. Wherever the skin is cut, bruised, burned,
infected or diseased in any form, "Quicksilver" will do
it wonderfully.

Dr. E. B. Robinson, Major Royal Corps, Montreal, and
Commander of the 1st Battalion, writes: "Quicksilver" is a treasure,
and does just what you say for it; when it is known every household
will have it. It is worth its weight in gold to parents, who should
keep it in the house for emergencies such as toothache, burns, cuts, etc.

OUT OF COURT.

A Big Case Is Set for Dismissal—Ritchie vs. Ritchie, 1000, 1000.

(Athena, Ohio, Journal.)

The highest damage case ever commenced in this county was dismissed Friday.

It was entitled Samuel J. Ritchie vs. Stevenson Burke, the executor of the estate of Henry B. Payne and Charles Baird and J. B. Wright, executors of the estate of Thomas C. Baird.

The action pending for damages on account of alleged conspiracy on the part of Burke, Payne and Cornhill, by which the value of the plaintiff's stock in the Anglo-American Mining Company, the Canadian Copper Company and the Central Ontario Railroad Company was reduced.

Ritchie asked for \$600,000 damages. His wife claimed that the value of the shares was depreciated in consequence of the alleged conspiracy, although she had never committed any action.

The suit ended in the way of the executor of the Cornhill estate settling the same and distributing it among the heirs.

The latter were anxious to have it out of the way, and hence representing several interest in the Cornhill estate entered into a contract with Mr. Ritchie and his wife by which it was agreed that Mr. Ritchie should dismiss the suit at his own costs and Mrs. Ritchie should release her right to bring another action, and thus end all claims in the way of the heirs securing possession of their share of the estate.

In return for this they contracted to assign to Mrs. Ritchie their seven-eighths interest in the judgment and decree which was rendered against Mr. Ritchie and in favor of Mr. Cornhill in the famous McMillan suit in the United States circuit court.

This judgment in October, 1894, amounted to \$200,000, and with the interest, is now at least \$350,000.

They also agreed to release to Mrs. Ritchie the celebrated securities which she had pledged to Cornhill for her husband's debt, on which judgment was rendered, and the securities now being in the hands of a notary public appointed by the United States court.

The securities pledged consist of stocks in the Canadian Copper Company and the Anglo-American Mining Company, and the mortgage bonds of the Central Ontario Railroad, the face value of which is between \$700,000 and \$800,000. Of this she owns seven-eighths.

The Ritchie divorce case was a joint action, and in order to release the Cornhill heirs it was necessary to dismiss it against all other parties. As against Judge Burke and the Payne estate it is dismissed without prejudice.

Deaf and Dumb Institute.

The Globe says in its issue of today: Perhaps no more interesting gathering ever held the Union Station than the numbers of deaf and dumb children who assembled there at 1:30 yesterday.

They were coming from all the villages of the Province en route to the Belleville, and were met by the Superintendent of the Deaf and Dumb Institute, Mr. R. Mathison, and several of the teachers.

While waiting for the train for Belleville Mr. Mathison, Superintendent, and Inspector Chamberlain went down to see the children and meet the fathers and mothers who accompanied them as far as Toronto. The Provincial Secretary was most interested in the assembly, and held an informal conversation with the parents while the children extended "the G.I. hand" to each other. The parents expressed their gratification at the progress made in the education of the mute members of their families, and at the encouragement and assistance furnished by all concerned.

It is such a high degree of proficiency in the use of the sign language, which is the use of all the powers, know little of the disadvantages of never speaking nor hearing, and to Mr. Mathison must be on the greatest mode of praise for his efforts to make this class of people live enjoyable and profitable. The large party left in two or three cars, and expected to reach Belleville at six o'clock.

Quite Unfortunate.

A local man, says an exchange, met with a chapter of accidents last night and this morning. The lady being sick he rose, changed his shirt and a cotton flannel night shirt. In his excitement he even forgot to fire his night shirt from the match he struck and only saved his hair and good looks by stripping off the flannel garment. He was asleep that night. In the morning, while looking some wood, he cut himself across through the leg of his trousers and scraped the hide underneath, inflicting a deep wound. He finished up by stepping on a basket of peaches, placing at the head of the collar strap, landed among the assortment on the cellar floor. Agents for accident insurance will please apply.

The Art of Beauty is a... Beautiful Skin.

The art of looking one's best by beautifying and improving the complexion is not easily acquired. Close observation and good natural taste are necessary for even beauty to display itself to the greatest advantage. "Beauty, when unadorned, is almost the most," is only true in a limited sense. Beauty may make the most of itself by bringing art to the aid of nature, and is for more important, must take all necessary steps to preserve it. Beauty is woman's wealth, strength and power, and the knowledge how to procure, improve and preserve it is perfectly legitimate, and should be extended.

How often has a lady to remain at home from her usual duties and her own account on account of her face being red and blotchy, caused by irritated skin. Every lady should be acquainted with Dr. Chase's Ointment. It is acknowledged by physicians to be without peer and the only safe and reliable cure for all skin diseases.

The Most Effective Skin Beautifier In the World.

One application will prevent and cure pimples, blackheads, blotches, red, rough and oily skin. A positive cure for itching palms and shapless nails. Dr. L. A. Smith says he always prescribes Dr. Chase's Ointment in cases of Eczema, Salt Rheum, Crust Skin and all Itching Skin Diseases.

QUINTO DISTRICT FAIR

Third Day's Programme Drew a Large Crowd.

SOME GOOD RACING IN THE AFTERNOON.

SPECIAL ATTRACTIONS - THE FIREWORKS WERE MAGNIFICENT - MILITARY MANOEUVRES AND SPORTS - NOTES.

The Boy of Quinto District Exhibition has still a warm place in the hearts of the people of Belleville and the surrounding country, as yesterday's race programme demonstrated. Both the farmers and town people turned out in large numbers and during the afternoon there were fully 3,000 people on the grounds.

While the exhibition in some respects is not up to its standard of other years, still there seems to be sufficient to please all present and a more jolly and good natured crowd would be hard to find. The school children never enjoyed a more delightful holiday, and it was wisdom on the part of the School Board to close the schools, as no better object lesson could be afforded than an agricultural fair.

Of course the speeding events were again the leading attraction. The grand stand was well filled, and the race around the track was closely packed with people all the afternoon. The races were well handled and there were very few time-outs.

Col. Hamilton and Capt. Johnston started; Hamilton and Capt. Johnston were well judges, and Robt. Howie and Dr. Dolan held the watches.

The first event called was the 2-40 class and four horses faced the starter. There was some speculation as to which horse would get the victory, as there were three very evenly matched. Picket Boy, which had not been in training this season, had the speed of the party in the first two heats and easily got away with the field.

In the last three heats Moly M., which is a bad actor and needs a lot of work, staidied down and won all the way. Joe G. was second in four of the five heats and it was the generally accepted opinion that he could have done better had he been driven out. His driver was changed, but it did not change his position. Picket Boy showed nothing like his old-time form, but still has plenty of speed. Following is the summary:

2-40 CLASS.
Moly M., Thos. McKee, 4 3 1 1 1
Picket Boy, Mr. McKee, 1 1 2 4 4
Joe G., W. W. W., 2 2 4 3 3
Annelburg, 2 2 4 3 3
Walter Watson, 3 4 3 3 3
Brighton, 3 4 3 3 3
Time—2:25, 2:25, 2:25, 2:25, 2:25.

The second race was a walkover for School Girl, which won in straight heats. Three horses came to the starting post in the first heat, but the driver of C. C. Leavens' Kit refused to go against School Girl and she was drawn. Following is the summary:

SCHOOL GIRL.
School Girl, J. Timan, Belleville, 1 1 1
Kit, C. C. Leavens, Belleville, 2 2 2
Time—1:10, 1:10, 1:10, 1:10, 1:10.

Walter Fanning, Jr., gave exhibitions of fancy bicycle riding between the heats and was freely applauded. The young fellow surprised everyone by his agility on the wheel. He performed a number of very clever stunts and with more practice will be able to compete with the best of them.

The pacing man Jessie Stanton, without driver or sulky, paced a mile against a bicycle in 3:15. In the first attempt the frightened horse from the track by some one jolting at her.

THE EVENING PROGRAMME.

One of the largest crowds that ever attended an evening performance at the Agricultural Park thronged into the grounds last evening to witness Prof. Hand's display of fireworks and see the military manoeuvres. There were between 1,000 and 2,000 people present and it was a well pleased audience.

The 15th and No. 1 Company of the 4th Battalion marched to the grounds headed by the silver and bugle bands of the former. The companies made a detour and came upon the hill from the west. The night attack upon a fort in the south corner of the grounds was admirably carried out and most realistic, especially the finale. The boom of cannon rockets added much to the effect.

The display of fireworks was the best ever given on Agricultural Park. The rockets were magnificent in their brilliancy, and the set pieces were superb. Loud applause greeted the setting off of the piece representing the last of the Queen's.

The figure below "1837-1897" and the band played "God Save the Queen."

Mr. J. M. Farley donated \$10 for military sports and his generosity was loudly cheered by the men.

The first event was a tug of war, lost two in three, three minute pulls, between teams representing the 15th and 4th Battalions. There were eight men on a side. The 15th was victorious, with the respectable team of D. Company, of which Capt. McGuinness is so proud. And they added another to their long list of victories.

The teams were:

15th—Capt. Wilson, (Capt.) Private Penny, Stanley, Lyle, Record (anchor) W. Keller, L. Keller and Gulliver.

4th—Sergeant Jones, (Capt.) Sergeant Johnson, Corp. Gould, Private Lonsdale, Hodgson, Starry, Gwynne and Fry.

The 15th were never in the game from the start, the 10th pulling them all over the ground.

Another interesting event was a military bicycle race, in which there were three starters. Sergeant Marsh, Bugle Major Pringle and Sergeant Dempsey. The race

was two laps of the track, and the riders had to dismount and fire two rounds at the end of the first lap. Marsh and Pringle made a pretty finish, but the former got the race by inches, Dempsey third.

This concluded the evening programme and soon after the crowd began to desert the grounds.

NOTES.

Mr. J. Caldwell's team was driven an exhibition ride by Joe Flynn during the afternoon and they did the distance without a skip in three minutes. The third lap was done in 50 seconds.

The meeting of the 100-mile race was never more farcically shown than yesterday. Large horses came: make the turns on a small track and keep up their speed.

The driver of the 100-mile race, who judged all the horses in the ring, is the best man that could have been chosen for position. He knows a good horse when he sees it and if an animal comes before him with a weak spot or a defect he is sure to discover it. He gave satisfaction to all the chasers.

Mr. Jas. A. Roy is proud of the success of his fine young team. They took first as a team and one of them took first as a single driver.

The organ on that merry-go-round is tuning and that badly. A German band leader it with that so called musical instrument.

This morning at three o'clock the 100-mile race for boys under 15 years. First prize 75c, 2nd 50c, 3rd 25c. There will also be a 1 mile bicycle race for boys under 15 at 3:15.

The tent of the "W. W. W." collapsed, the Sun and the Ontario, collapsed with the wind last night. The Intelligencer tent stood the storm and never stirred.

The Intelligencer tent was a favorite resort yesterday. Mr. C. J. Howell, who was in attendance in representing office of the WEEKLY INTELLIGENCER, found that two-thirds of the visitors were subscribers to the Intelligencer.

EXHIBITORS' NOTES.

FINE HATS AND NECKWEAR.

Mr. Chas. Schuster has in the centre of the main building a fine display of hats, neckwear and other gents' furnishings. Of course the display hardly gives a fair idea of what stock Mr. Schuster carries, but it will be shown some of the latest novelties in Wilkinson hats and fine neckwear, with a few lines of the latest creations in underwear, gloves, hosiery, etc., etc.

When buying gents' furnishings of any kind it is in the way to have the latest styles as these have been out of date for months or even years.

Mr. Schuster's hats, neckties, gloves and hosiery are right. The carries all the staple lines in hat and figure on a small price and quick return. He makes a specialty of waterproof coats and umbrellas at all prices. Give Charlie a call and you will be a steady customer.

Boys' Reefer Jackets.

They are going to be greatly worn this fall and winter. The Oak Hall have been looking about and are quite prepared to have the big tre to which is bound to come in this line of coats. Prices: \$2, \$2.50, \$3 and \$4. Some with high collars and some made ordinary. We would like the mothers to call in and see them.

Fanny Collision.

Miss Fannie Alford on Wednesday evening was riding upon her wheel, when a young man in endeavoring to pass collided with her, with the result that the front tire of her wheel was broken in a large patch.

She was thrown to the ground, but was not injured. The accident was caused by the young man riding upon the wrong side of the road in passing her. He did not even have the courtesy to stop to see if she was injured.

Very Fine.

Lambie wool suits for ladies \$3.50 in room suits, 25c. These are a much finer quality than last season's. We have also seen for children and gentlemen.

HAINES & LOCKETT.

Napanee Fair Sept. 21.

The Napanee will carry passengers to Napanee and return on all days except Sunday, Sept. 21, 1897.

They Need Attention.

A gang of young hooligans who nightly gather on the vacant lot, corner of James st. and Bridge st. West, ought to be broken up by the police. Their occupation is to invent new forms of profanity, to insult persons, and to occasionally to disgust the neighborhood. Their last night's performance ought to have given a week to several of them and to two men whom they insulted whilst passing.

Save Your Eyes.

If your sight is failing or your eyes trouble you call and have them examined free of charge. You require glasses, we will give you satisfaction, so we keep a full supply of lenses and frames. ALEX. HAY.

Surrogate Court.

Letters of administration to the estate of the late Mrs. C. A. Meyers were yesterday granted to Mr. H. W. Jones, who was named executor by the will, and who was valued at \$2,000. A. R. Douglas, Solicitor.

THIS IS GOLD NEWS.

From \$3000 to \$5000 Per Day Being Taken From the Deloro Mines.

From a reliable source the INTELLIGENCER has to-day learned that the Canadian Gold Fields Co. has struck it rich indeed.

Our informant tells us that the gold yield at the Deloro mine is from \$3000 to \$5000 per day. The numbers of the company will say nothing as to the output, but this information comes from an inside source.

There is a prospect of the Craig mine beginning operations again shortly on a sound financial basis.

A Dream of Beauty.

Have you seen our early Fall Neckwear? They are a dream of beauty; all the latest American novelties, at Schuster's.

THE RECEIPTS NOT SUFFICIENT TO PAY ALL THE EXPENSES.

It may be remembered that last year's receipts were not sufficient to pay all the expenses.

What may be Belleville's last fair does so yesterday. It was a big task for the directors to undertake to promote the exhibition of 1900, even had they had the cooperation of all parties interested, but the task was greatly increased, said a Director yesterday, when the merchants refused to take an active interest in it.

The Director in question also stated that this would be the last fair held by the West Hastings Agricultural Society until the next year, and that the society had decided to discontinue the fair for the lack of interest taken by the merchants and the public.

It would not be better that the town ship fairs in the front of the Province be done away with and district exhibitions be held in the large towns? To make the large shows more successful it might be well to take in more than one county in the societies.

A prominent merchant said yesterday that he did not feel like putting valuable goods under a roof that leaked like a sieve, and there were several others, he said, who objected to making exhibitors in the same ground.

It would appear that this year's fair was not thoroughly advertised in the city's surrounding country.

The total gate receipts for the last three days did not exceed \$1000, while it was necessary that \$1200 be taken in to defray expenses. The attendance yesterday was slim, but the directors put on two good races and the spectators were well pleased.

The first event was the free-for-all, which were three entries. Wheel Fortune was in good form and was driven by Jas. Tunlick. Beethoven, who has been a bad actor in years past, has greatly improved in behavior since Kinney got hold of him, and he chased Wheel of Fortune out in three of the four and beat him in one. Hebron was simply in to make a race, but was close up most of the time. Following is the summary:

Wheel of Fortune..... 1 1 2
Beethoven..... 2 3 3
Hebron..... 3 3 3

Time—2:25, 2:30, 2:35.

There was a running race between Mendonbrook, owned by S. Yeomans, of Colborne, and Little Nell, owned by J. Gerwer. The first half was close enough to be exciting, and Mendonbrook only won by a neck. In the second half one of the stirrups on Little Nell's saddle broke, the saddle slipped, and her rider ceased her up.

Summary:
Mendonbrook..... 1 1
Little Nell..... 2 2

Time—1:15, 1:20.

Jessie Stanton, a well-known milkmaid, was driven against a bicyclist and did it better than on the previous days.

Col. Fulton gave an exhibition of flying with the New Boston Obolite. The kite is an old-fashioned contrivance, but it is a very good one, and it is a very good one.

It was about five o'clock when the race was over and exhibitors began to remove their exhibits. Before dark nearly every thing was of the ground and what was left was taken away by the police.

Mr. S. C. Stevenson, Manager of St. John's Montreal Exposition Company, was visitor to the fair yesterday afternoon.

Two ladies had a lively race with their horses before the other races began yesterday afternoon. They handled the horses well.

Mr. R. G. Martin, of Mayville, sold pair of bays yesterday for \$100. That is only one result of making an exhibit at the fair.

EXHIBITORS' NOTES.

THE STOMACH.

The stomach is just below the chest, and above the abdomen—the popular idea is, it is situated lower down—and many who have dyspepsia, think they have heart or lung trouble. If you have pain, soreness, sickness or distress in the region of the chest, a dose of No. 10 will relieve, and its continued use, cure. This is quickly demonstrated in "Stomach Heartburn," when the relief is instantaneous.

No. 10 is to be had at every drug store from Canada to Cuba. In even more widely distributed than Dr. Humphrey's famous "77" FOR COLDS.

Dr. Humphrey, Homoeopathic Manufacturer of your Remedies or Malted Food, sold by druggists or sent on a receipt of 50 cts. per lb. to Humphrey, Med. Co., William and John Sts., New York.

TOO MUCH TARTAR.

The principal tendency of the present Government, in their administration of public affairs seems to be government by newspaper.

The Premier set the example when, shortly after his accession to office, he promulgated his policy by means of an interview with a reporter for the Chicago Record, which was published in the Montreal press and created a sensation at the time.

Mr. Tarte, who has long been a newspaper man, has not only followed the example of the first Minister, but he has carried it to the letter. He has been a newspaper man for some time, and he has been a newspaper man for some time, and he has been a newspaper man for some time.

Some two or three years ago he removed his newspaper, "Le Quotidien," from Quebec to Montreal, where he continued to publish it until, after he was appointed Minister of Public Works, an old and influential Liberal journal, "Le Patriote," was, owing to the ill-health of its proprietor, placed on the market.

Charles to relate, a well-known Liberal, namely Mr. John Gosselin, of Q. C., gave his notice for the purchase of Le Patriote for \$30,000 and turned it over to Mr. Tarte, son, the "clean" Minister becoming its chief editor and "Le Quotidien" was made into a newspaper.

Mr. Tarte states that the purchase was made with party funds, as the Government needed an organ in Montreal.

And yet Mr. Tarte, as we have seen, published his newspaper in that city. Montreal Liberator says Mr. Tarte's assertion as to the use of party funds for the purchase of the paper.

At all events, it was not long before the purchase of Le Patriote that the Government made a 99 year lease of the Drummond County Railway as a feeder to the Intercolonial.

Of that railway—it is always the generous Mr. Gosselin who is in the President; for the Senate previously rejected the bill.

Government of that road, which proposal Mr. Tarte was one of the strongest advocates.

Now Mr. Tarte is using his—shall we say his "fortunate" position, which he has given a loss without account of \$3000, so that, after all, from the Mercier Government, Mr. Tarte has not lost a cent.

Possibly with the object of giving some return for the \$30,000 paid by President Gosselin for the paper, Mr. Tarte almost daily uses its columns in defending his official acts against attacks from a host of Liberal newspapers in all parts of the Dominion, and in publishing third-party threats against his Liberal confederates who have been criticizing the acts and policy of the Administration.

Is there not too much government by newspaper?

Is there not too much Tarte?

Daily Intelligencer.

GROSS MISREPRESENTATION.

The Globe wants to have come even more concerned for its protegee Tarte than it was previously, since the *Intelligencer* published an editorial comment on the fact that our friend Tarte has of late become the apologist of Mr. J. J. Tarte, at whom, in the not very distant past, it could scarcely find words strong enough to hurl.

In its issue of Saturday the Globe, after alleging that Mr. Tarte is a liar, and "specific charges" by the Senate at the next session of that body, expresses the fear that Mr. Tarte will not get a fair trial because the name of Sir Mackenzie Bowell, who will become one of the judges, appears "at the head of the editorial page" of the *Intelligencer* as President of the "Intelligencer Company," and the "Intelligencer" is a "liar."

So as if we were already found guilty by the "Senate," refer to him as a "contaminated" political criminal, applaud those who "throw mud at him and condemn him in the advance of the inquiry," and "ask the Globe for asking for him a fair trial."

Our contemporary evidently finds itself with a bad case on hand, otherwise it would not have descended into "mud-slinging," namely a race to what we will mildly term misrepresentation, in attempting to influence public opinion in favor of its client, against whom, as the *Intelligencer* pointed out, the most damaging attacks have been made by the *Liberator* and its allies.

In so far as the Globe's assertions are concerned, the only one of them which is true is that Sir Mackenzie Bowell's name stands at the head of the editorial page of the *Intelligencer*, as President of the *Intelligencer Printing House* (not Company, as the Globe has it; but that is a minor error).

It is not correct, as asserted by the Globe, that—
1. Specific charges against Mr. Tarte are to be tried by the Senate at its next session. The fact is that an enquiry is to be made by a Committee of the Senate on the affairs of the Drummond County Railway, which Mr. Tarte's Department has no interest in.

2. The *Intelligencer* is not treated by Mr. Tarte as if he had already been condemned by the Senate, or referred to him as a contaminated political criminal, with a gross travesty of what was said in the article which the Globe has taken exception to—whether designedly made, or occasioned by stupidity, we know not.

Here are the words used by the *Intelligencer*: "The Toronto Globe, a Government organ and defender, not of the faith, but of that immaculate and pure political Tarte, has its hands full just now. Tarte has become the moral police of the Globe, and the Globe, hence the influence which the former condemned political criminal exercises over the great political movement of the Liberal party."

No person of ordinary intelligence reading the words "former condemned political criminal" can fail to see that they refer to the Globe's utterances in past times with regard to its present friend Tarte.

Thus the fabric of truth erected by our contemporary falls to the ground, and the attempt to win public sympathy for its protegee by foundationless charges against the gentleman who may, incidentally, find the trail of Mr. Tarte in connection with the Drummond County Railway, fails with it.

Barely the Globe would not wish to have charges in our political arena tried by him who knew nothing of the matters in hand, as under the name of Tarte's organ. If so, it will be disappointed. The British system is good enough for the people of Canada, namely finding according to the evidence and this the Senate will do in connection with the Drummond County Railway affair.

So far as Sir Mackenzie Bowell is concerned, he was the sole proprietor of the *Intelligencer* during the year ended September 14th, 1897, so that the publication of his name as head of the recently perfected organization has not that significant which the Globe disingenuously attempts to attach to it. The gentleman did not hesitate to do it. The opinion in the Senate on the matter in question; then why should he now be asked by the Globe as he has been in the past, to do it? The answer is obvious to the most common sense.

"Hood's" Sarsaparilla is a compound of arsenic. I was weak and debilitated and Hood's Sarsaparilla built me up and made me strong and well. After a severe cold I again suffered from Hood's Sarsaparilla, which again built me up and made me strong and well. Hood's Sarsaparilla is a compound of arsenic. Sarsaparilla, Dr. J. C.
